## Current Conditions

We are using SalsaLabs as a Nonprofit organization CRM. Salsa is nice designed application but it has same kind of problems because it can't cover alliance necessities'. The main problems are:

- If a person decide to register on the salsa you have to reedit his expire information and olsa type of the account. AAI membership has actually these options.
  - Mounthy members without printed magazine
  - Mounthy member with printed magazine
  - Annual Affiliate Member with printed magazine
  - Annual Affiliate Member without magazine
  - Annual Affiliate Organization
  - Annual Associate Organization
  - Student Member
  - Lifetime Member
  - Annual Affiliate Director Member
- Salsa does not support monthly membership
- Salsa does not sport PayPal auto invoicing
- If user pays an annual fee, salsa can't recognize and can't add a year membership.

- Terrible mailing condition.
- Expensive cost.

That's why it is really really hard to manage member information's and also data.

## **Conclusion**

- There is no associate member on Australia, Asia (Especially Russia, Middle Asia and Japan) and Australia so we have to contact organizations on that zones.
- All old payments of the organizations should be paid, or the board might vote for forgiveness.
- Salsa Replacement Project must be completed.
